Stable Income Annuity

An Income Guaranteed

The Stable Income Annuity is designed precisely to insure against outliving an income. It provides regular, guaranteed income payments for life (or a chosen period). This annuity is an excellent way to maintain an income stream matched to personal financial needs.

Eligibility

A Stable Income Annuity may be established for an owner and annuitant age 90 or younger. The minimum premium amount is \$15,000 and the maximum is \$1,000,000. Greater amounts may be considered, but must receive home-office approval prior to application.

Tax-Qualification Options

This annuity may be established as an Individual Retirement Annuity, 403(b) Tax-Sheltered Annuity or Simplified Employee Pension to initiate or continue a qualified retirement savings account.

Lump-sum deposits and complete or partial exchanges of non-qualified funds may also be accepted into this annuity.

Tax Consequences

The payments generated from the purchase of this annuity will generally be taxable in the year in which they are received. The good news is that often people move to a lower tax bracket during this time of their lives and will likely pay less in taxes than they would have just a few years earlier. The amount of the payment that is deemed taxable will be based on the tax status of the funds under IRS guidelines.

Time To Reflect On The Purchase

From the date the annuity contract is delivered, an owner has 30 days to consider the purchase. If the transaction is terminated during those 30 days, Standard Insurance Company will return all premium, net of any withdrawals taken.

Are You Prepared?

According to a study by the Centers for Disease Control and Prevention, the life expectancy of someone who retires at age 65 averages more than 18 years.

To fully enjoy all those years of quality retirement, many are finding that they're in need of a financial option that can:

- Supplement income from Social Security, a pension plan or investments;
- Provide financial stability in the event of a long-term illness or nursing home stay; and
- Ensure against outliving savings.

Enhance Your Annuity

Inflation Protection

On many of the income options, an election may be made to guard against the effects of inflation with an annually increasing payment of 1 percent, 2 percent, 3 percent, 4 percent or 5 percent. If this option is selected at the time of application, the increased payments would begin one year after the first payment and would increase annually thereafter.
