

INCOME PROTECTOR

Income to help sustain your lifestyle

Allianz VisionSM New York
Variable Annuity

Allianz  **New York**

SOLUTIONS FOR RETIREMENT REALITIES

Planning for the knowns – and unknowns – of retirement

Now more than ever, the key to creating the retirement lifestyle you want is a strategy that takes into account not just what we know about retirement in the future – but what we **don't** know.

Retirement knows

- Retirements are lasting longer due to increased life expectancies.
- Retirement will cost more due to inflation.
- Managing your tax burden will be more important than ever.

Retirement unknowns

- The long-term solvency of Social Security and whether that will result in a reduction of current benefit levels
- Future inflation and tax rates
- Future market volatility and its effect on retirement savings

ALLIANZ VISIONSM NEW YORK VARIABLE ANNUITY WITH THE OPTIONAL INCOME PROTECTOR RIDER

Together, they can offer you a level of protection in the retirement years ahead. Along with consistent, predictable income, you'll have the increasing income potential to help you address the rising cost of living. The Income Protector rider is a lifetime income benefit that guarantees income in the form of withdrawals for as long as you or you and your spouse live, and gives you continued access to your contract value for a period of time.

Variable annuities can help meet your long-term retirement goals by providing tax deferral, a range of investment options, a death benefit during the accumulation phase, and guaranteed lifetime income – along with optional riders and benefits, which are available for an additional cost.

It's your retirement. Make it the one you want, with the help of Allianz Life[®] of NY.

Help reduce uncertainty in retirement with **increasing income potential.**

This brochure is designed to provide you with an overview of the optional Income Protector rider available with Allianz Vision New York deferred variable annuity.

This material must be preceded or accompanied by the client product overview and a current prospectus for Allianz VisionSM New York Variable Annuity.

Call your financial professional or Allianz Life Financial Services, LLC, member FINRA, at 800.624.0197 to obtain a prospectus about Allianz Life Insurance Company of New York (Allianz Life[®] of NY) variable investment options. The prospectuses contain details on investment objectives, risks, fees, and expenses, as well as other information about the variable annuity and variable investment options, which you should carefully consider. Please read the prospectuses thoroughly before sending money.

All annuity contract and rider guarantees, or annuity payout rates, are backed by the claims-paying ability of the issuing insurance company. They are not backed by the broker/dealer from which this annuity is purchased, by the insurance agency from which this annuity is purchased, or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of Allianz Life Insurance Company of New York. Guarantees do not apply to the performance of the variable subaccounts, which will fluctuate with market conditions.

Products are issued by Allianz Life Insurance Company of New York and distributed by its affiliate, Allianz Life Financial Services, LLC, member FINRA.

• Not FDIC insured • May lose value • No bank or credit union guarantee • Not a deposit • Not insured by any federal government agency or NCUA/NCUSIF

The need for greater retirement saving

Given the uncertainty of retirement expenses and the growing uncertainty regarding traditional sources of retirement income, now much of the funding burden – and the risk – falls on individuals.

Unfortunately, the average working household has virtually no retirement savings.¹

In fact, four in 10 pre-retirees (between ages 50 and 75) report having major concerns about outliving their assets.²

Three quarters of working-age households have not saved enough for retirement.¹

If you're among those concerned about whether you'll have adequate income throughout your retirement – and most of us probably should be – **Income Protector can help** you build up a base for lifetime income (called a "Benefit Base").

Building your Benefit Base

Your Benefit Base is used to calculate your Lifetime Plus Payments – the income you'll receive to help support your retirement lifestyle – and the rider charge. This value is not available as a lump-sum withdrawal.

When you're ready to start taking income, **your Benefit Base will be equal to the greatest of these three:**

- Quarterly Anniversary Value
- Annual Increase
- Current contract value

Once established, your Benefit Base is protected and will never decrease due to negative investment performance. The Benefit Base is adjusted for

additional purchase payments and withdrawals (other than Lifetime Plus Payments), including any withdrawal charges.

Please see page 10 for more detailed information on the Income Protector rider.

Quarterly Anniversary Value: Automatically locks in your highest quarterly contract value.³ The contract value may be higher between quarterly anniversaries, but will not be locked in. The Quarterly Anniversary Value and Annual Increase are calculated before the older covered person (you, or you and your spouse if you select joint payments) reaches age 91, or until you start taking income, whichever comes first.

Annual Increase: Your purchase payments are guaranteed to increase at a simple interest rate (called the Annual Increase Percentage) annually⁴ on each quarterly contract anniversary **for up to 30 years** (the Guarantee Years).

For the current Annual Increase Percentage, please see your financial professional or visit www.allianzlife.com/visionnyrates.

Current contract value:³ The current value of your contract.

¹Jennifer Erin Brown, Joelle Saad-Lessler, and Diane Oakley, "Retirement in America: Out of Reach for Working Americans?" National Institute on Retirement Security, September 2018.

²LIMRA Secure Retirement Institute, "The Retirement Income Reference Book, Fourth Edition" 2018.

³The contract value used to calculate the Benefit Base and annual Lifetime Plus Payment increases excludes Daily Transactions, which include additional purchase payments, withdrawals (including Lifetime Plus Payments), and transfer fees.

⁴The Annual Increase Percentage is credited quarterly. If Income Protector is selected at issue, we apply a simple interest increase of one-fourth of the Annual Increase Percentage to the purchase payments, adjusted for withdrawals.

The advantage of quarterly lock-ins

There are several factors to look at when evaluating potential lifetime withdrawal benefits. One key is to know **how often the Benefit Base is credited**.

There are different methods available for crediting Annual Increases. The Income Protector rider uses quarterly crediting. If selected at issue, a percentage of the total purchase payments adjusted for withdrawals will be credited to the Benefit Base.

BUT WHAT IF YOUR CONTRACT VALUE¹ IS HIGHER THAN THE ANNUAL INCREASE ON A QUARTERLY ANNIVERSARY?

In that case, the Annual Increase will automatically reset and lock in at the higher contract value. Then, in the next quarter we apply one-fourth of the Annual Increase Percentage to the reset value. We will continue to apply simple interest increases to this higher value on future quarterly anniversaries. See page 7 for an example of how this works.

www

allianzlife.com/visionnyrates

Get four times the opportunity with quarterly locks-ins that can help grow your Benefit Base faster. For current rates, check www.allianzlife.com/visionnyrates.

¹ The contract value used to calculate the Benefit Base and annual Lifetime Plus Payment increases excludes Daily Transactions which include additional purchase payments, withdrawals (including Lifetime Plus Payments), and transfer fees.

The need for lifetime retirement income

With health care advancements and healthier lifestyles, we're now living longer than past generations. Today, men have a life expectancy of 77 years, while women's life expectancy has reached 82 years.¹ That means retirements could potentially last 25 or 30 years – or even longer.

HAVE YOU CONSIDERED THE EFFECT OF INFLATION?

While we can't know the inflation rate in the future, historically, it has been around 3% per year.²

When the cost of living **increases**, your purchasing power **decreases**.

During your working years, inflation may be less of an issue, since you may be getting periodic cost-of-living increases in your salary. But if you have a fixed income during your retirement, you won't be keeping pace with rising prices. When the inflation rate rises, your purchasing power drops.

So even though your income hasn't changed, it will buy you less and less as the years go by.

Inflation erodes your purchasing power in big and small ways

	Average price in 1990	Average price today
Gas, unleaded regular, per gallon ³	\$1.16	\$3.40
Postage stamp ⁴	\$0.25	\$0.55
A dozen large eggs, a pound of bananas, and a loaf of white bread ³	\$2.17	\$3.40

²U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers (CPI-U), Average price data 1919-2019.

Withdrawals will reduce the contract value and the value of any protection benefits. Additional withdrawals taken within the contract withdrawal charge schedule will be subject to a withdrawal charge. All withdrawals are subject to ordinary income tax and, if taken prior to age 59½, may be subject to a 10% federal additional tax.

Excess withdrawals (withdrawals that are greater than your annual maximum Lifetime Plus Payment) may be subject to a withdrawal charge and will reduce the value of any protection benefits. Excess withdrawals may cause future Lifetime Plus Payments to decrease or stop, and the Income Protector rider to end.

INCOME PROTECTOR IS DESIGNED TO ENSURE YOU HAVE PREDICTABLE INCOME PAYMENTS THAT LAST THE REST OF YOUR LIFE – NO MATTER HOW LONG THAT LIFE IS.

Your initial annual maximum Lifetime Plus Payment is calculated using your Benefit Base and a payment percentage based on your age (or the age of the younger covered person if you and your spouse select joint payments).

Regardless of how your investment options perform, even if the contract value declines to zero, Lifetime Plus Payments are guaranteed to be paid for the rest of your life and will not decrease unless you take an excess withdrawal.

Create enough income to maintain your lifestyle.

Age when Lifetime Plus Payments begin	Single annual maximum payment %	Joint annual maximum payment %
For the current Payment Percentage Table please see www.allianzlife.com/visionnyrates .		

INCOME PROTECTOR CAN HELP KEEP INFLATION FROM ERODING THE VALUE OF YOUR RETIREMENT INCOME.

With Income Protector, payment increases are available every benefit anniversary before you (or the older covered person) reach age 91.

- **Annual payment increase:** If your contract value is higher from one benefit anniversary to the next, your annual maximum Lifetime Plus Payment and Benefit Base will increase by the same percentage as the increase between the two contract values. You must choose to receive the annual maximum Lifetime Plus Payment allowed during the prior year in order to have an opportunity for this type of payment increase every benefit anniversary.

- **Moving into a higher payment percentage:** If, on your benefit anniversary, the younger covered person has reached a new age band resulting in a higher payment percentage, your annual maximum Lifetime Plus Payment will increase if this higher percentage, when multiplied by your current contract value, is greater than your current maximum payment.

With lifetime withdrawal benefits, it's not where the income starts – it's what happens next. Our increasing income potential can help your income strategy stay strong. Past payment increases are not a guarantee of future results.

Potential **increasing income** through retirement.

Income Protector provides income with flexibility and guarantees.

<p>Up to 30 years of guaranteed quarterly growth: Prior to beginning lifetime income, simple interest is credited to the Benefit Base's Annual Increase on each quarterly contract anniversary for up to 30 years (the Guarantee Years) and before the older covered person is 91 years old, whichever comes first.</p>	<p>Quarterly resets: On a quarterly basis, the Annual Increase will automatically reset to equal the contract value¹; if higher. (The contract value may be higher between quarterly anniversaries, but will not be locked in.)</p>	<p>Withdrawals and RMD-friendly: The Annual Increase Percentage is credited even in years you need to take a withdrawal or satisfy an RMD. The Benefit Base is adjusted for any withdrawals (other than the Lifetime Plus Payments), including any applicable withdrawal charges.</p>	<p>Lifetime income that can increase: Even if your contract value is less than the Benefit Base, you have opportunities for payment increases.</p>	<p>Start payments at any time once you or the younger covered person reach age 60 (the current minimum exercise age): You don't have to wait for a contract anniversary to start Lifetime Plus Payments.</p>

Building assets before retirement

Down market example

See the current rate sheet (www.allianzlife.com/visionnyrates) for the Annual Increase Percentage, Guarantee Years, Payment Percentage Table, and minimum exercise age.

Taking income during retirement

¹ This excludes Daily Transactions, which include additional purchase payments, withdrawals (including Lifetime Plus Payments), and transfer fees.

These hypothetical examples show how the Allianz Vision New York with the Income Protector might work under two different market scenarios. They do not predict or project actual performance of Allianz Vision™ New York Variable Annuity or its investment options. These examples assume Income Protector was selected at issue and no withdrawals are taken (other than Lifetime Plus Payments), and does not reflect the deduction of any charges.

Investment options for today's retirement

At Allianz Life of NY, we understand you need guarantees, investment choices, and strategies that can help you create and maintain the retirement lifestyle you want.

TOP MONEY MANAGERS

Income Protector provides guarantees that help build the foundation for your retirement – but that's not enough. You also need the power of our investment options to provide the opportunity for quarterly resets before retirement, and for increasing income potential during retirement.

FLEXIBLE CHOICES

VOLATILITY STRATEGIES

We've assembled investment options from some of the industry's top managers to ensure you have a variety of choices available. Our lineup offers flexibility and growth opportunities, including investment options that focus on reducing volatility. See the prospectus for a list of investment options available with Income Protector.

Your investment options

When selecting the optional Income Protector, access to aggressive investment options will be limited. This may limit the downside risk and the upside potential to your contract.

Every quarter, Allianz Life of NY will automatically rebalance your assets to maintain your investment allocations, based on your most recent choices for future purchase payments. You can choose to have your contract value rebalanced quarterly even if you don't select the Income Protector. See the Allianz VisionSM New York Variable Annuity prospectus for more details.

The AZL® and PIMCO investment options are managed by an affiliate of Allianz Life Insurance Company of New York and Allianz Life Financial Services, LLC. All are affiliated companies.

Please note: We may add or remove investment options from your contract in the future. If we do, we will provide written notice regarding additions or deletions. See the prospectus for the most current list of investment options available with Income Protector.

Fidelity Institutional Asset Management is a registered service mark of FMR LLC. Used with permission.

Income Protector rider at a glance

Income Protector

ISSUE AGE 0-80 based on older covered person.

The covered person(s) (you, or you and your spouse) is the person(s) on whom income payments are based.

Current rider charge at issue

Please see your financial professional or visit

www.allianzlife.com/visionnyrates for the current Income Protector rider charge for newly issued riders.

Rider charge is a percentage of the Benefit Base (deducted quarterly) and is subject to change on each quarterly anniversary, but will never be less than the minimum (0.50%) or greater than the maximum (2.50% for single, 2.75% for joint). The rider charge cannot increase/decrease more than 0.50% in any 12-month period.

The Income Protector establishes the Benefit Base, which is used to calculate the Lifetime Plus Payments and the rider charge. The Benefit Base is adjusted for any additional purchase payments and withdrawals other than Lifetime Plus Payments. Withdrawals include any applicable withdrawal charges.

Growth opportunities

Allocate money among investment options from professional money managers in multiple asset class categories. Allocation rules apply due to the selection of the Income Protector rider. Quarterly asset rebalancing also applies. These rules may help protect income by limiting allocations of the contract value to aggressive investment options. This may limit the downside risk and the upside potential to the contract.

Building the Benefit Base (before Lifetime Plus Payments begin)

The Benefit Base is the greater of the Quarterly Anniversary Value or the Annual Increase, which are both adjusted for additional purchase payments and withdrawals.

Quarterly Anniversary Value:

On each contract quarterly anniversary, the current contract value¹ is automatically locked in if it's higher than the previously locked-in value. The contract value may be higher between quarterly anniversaries, but will not be locked in.

Annual Increase:

Your purchase payments are guaranteed to increase at a simple interest rate (called the Annual Increase Percentage) annually on each quarterly contract anniversary for up to 30 years (the Guarantee Years).

Quarterly reset:

On a quarterly basis, prior to the older covered person's age 91, if the contract value on a quarterly anniversary is higher than the current Annual Increase, we will reset the Annual Increase to equal the contract value.¹

When you want it – Lifetime Plus Payments can be chosen at any time following the younger covered person’s 60th birthday and before the older covered person reaches age 91. Single Lifetime Plus Payments are guaranteed for the life of the covered person. Joint Lifetime Plus Payments are guaranteed for the life of the covered person and their spouse. The initial annual maximum Lifetime Plus Payment will be based on your Benefit Base (the greater of the Quarterly Anniversary Value, Annual Increase, or current contract value) multiplied by the payment percentage based on the younger covered person’s age.

Age when Lifetime Plus Payments begin	Single annual maximum payment %	Joint annual maximum payment %
For the current Payment Percentage Table, please see the current rate sheet at www.allianzlife.com/visionnryrates .		

How you want it – Lifetime Plus Payments are guaranteed for life, and you can choose to receive the maximum payment with opportunities for income payment increases.

- **Annual payment increase:** Every year, prior to the older covered person attaining age 91, if you took the maximum payment for the prior year, next year’s annual maximum payment will increase if your contract value increases. On each benefit anniversary, we compare the current contract value to the contract value from the previous benefit anniversary (or the benefit date if this is the first benefit anniversary). If the current contract value is higher, the Lifetime Plus Payment and Benefit Base will increase by the same percentage as the increase between the two contract values.
- **Moving into a higher payment percentage:** Every benefit anniversary, prior to the older covered person attaining age 91, that the younger covered person has reached a new age band resulting in a higher payment percentage, your annual maximum Lifetime Plus Payment will increase if this higher percentage, when multiplied by your current contract value,¹ is greater than your current maximum payment.

This profile represents the contract and benefits available on or after 4/29/13. Contracts and riders issued before 4/29/13 may have different charges and features, and guaranteed values may be calculated and applied differently. Please refer to the prospectus for more details.

Product and features are available only in New York and may vary by broker/dealer.

Frequently asked questions

Can I add additional purchase payments?

Purchase payments are allowed before you start taking Lifetime Plus Payments. Yearly contributions are capped at the initial amount, which is all purchase payments received before the first contract quarterly anniversary. Each purchase payment begins its own withdrawal charge schedule. The Benefit Base is adjusted for any additional purchase payment. If Income Protector is selected at issue, you can make additional purchase payments up to the initial amount during the remainder of the first contract year.

How long can simple interest and quarterly resets of the Annual Increase last?

These are credited during the Guarantee Years, which is currently 30 years, and before age 91, or when Lifetime Plus Payments begin, whichever occurs first. They are based on the age of the older covered person (you, or you and your spouse) if joint payments are selected.

When can you start Lifetime Plus Payments?

You can choose Lifetime Plus Payments at any time on or after your 60th birthday (or, if you're married, the younger covered person's 60th birthday). However, if you do not begin Lifetime Plus Payments before your (or the older covered person's) 91st birthday, the Income Protector will end and you will have incurred higher contract charges without receiving any of the benefit's advantages.

How often do rates change?

The rates for the Annual Increase Percentage and the number of Guarantee Years used to calculate the Benefit Base, and Payment Percentage Table and minimum exercise age used to calculate your Lifetime Plus Payments will be stated in your contract. We can change these rates for new business monthly. These rates cannot be changed after we issue your rider. Rates can be different for newly issued and inforce riders, and for inforce riders issued on different days and in different years.

For current rates, please see your financial professional or visit www.allianzlife.com/visionnyrates.

The search for guarantees in retirement income

The era of the “three-legged stool” for retirement funding may be coming to an end. This traditional approach has relied on three sources of retirement income generated by:

- Government (via Social Security)
- Employers (through defined benefit plans)
- Individual savings and investments

Today, the first two legs are becoming increasingly wobbly. That means the third leg – personal assets – must by necessity take a bigger role in stabilizing the retirement stool. Unfortunately, unlike the other two sources of retirement income, most individual assets are not protected by guarantees, and can be eroded over time by inflation or market losses.

As baby boomers become increasingly aware of the risk of outliving their assets, they are turning to products like annuities that can help convert a portion of their portfolio income to lifetime income.

Annuities can help you meet your long-term retirement goals by offering tax-deferred growth potential, a death benefit during the accumulation phase, and a guaranteed stream of income at retirement. They may also offer optional benefits to help protect retirement assets and income. Annuity guarantees are backed by the financial strength and claims-paying ability of the issuing insurance company.

You should carefully consider the features, benefits, limitations, risks, and fees that may be associated with an annuity, as well as the expenses, investment risks, and objectives of the underlying investment options in a variable annuity. Ask your financial professional if an annuity is appropriate for you based on your financial situation and objectives.

**Talk to your
financial professional.**

**Ask if Allianz VisionSM
New York Variable Annuity
with the optional Income
Protector rider may be a
good fit for your overall
retirement strategy.**

TRUE TO OUR PROMISES ... SO YOU CAN BE TRUE TO YOURS.®

A trusted provider of annuities, Allianz Life Insurance Company of New York (Allianz Life® of NY) bases each decision on a philosophy of being true: **True to our strength** as an important part of a leading global financial organization. **True to our passion** for making wise investment decisions. And **true to the people we serve**, each and every day.

Through a line of innovative products and our network of trusted financial professionals, Allianz Life of NY helps people as they seek to achieve their financial and retirement goals. Allianz Life of NY is proud to play a vital role in the success of our global parent, Allianz SE, one of the world's largest financial services companies.

While we are proud of our financial strength, we are made of much more than our balance sheet. By being true to our commitments and keeping our promises, we believe we make a real difference for our clients. It's why so many people rely on Allianz Life of NY today and count on us for tomorrow – when they need us most.

Guarantees are backed solely by the financial strength and claims-paying ability of Allianz Life Insurance Company of New York and do not apply to the performance of the variable subaccounts, which will fluctuate with market conditions.

Product and features are available only in New York and may vary by broker/dealer.

Product
overview

Allianz VisionSM New York Variable Annuity

Look beyond uncertainty.

The role of a variable annuity in your retirement strategy

- Tax deferral
- Market participation
- Optional protection benefits

A variable annuity is a contract between you and an insurance company that is designed to help you reach your long-term financial goals.

Variable annuities offer **a unique combination of features** including market participation through a variety of investment options; tax-deferred growth opportunities; and optional protection benefits that can provide certain income and beneficiary guarantees for an additional cost.

As with any investment vehicle, variable annuities are subject to risk, including possible loss of principal. Investment returns and principal will fluctuate with market conditions so that units, upon distribution, may be worth more or less than the original cost.

This content is general information for educational purposes and is not intended to constitute fiduciary advice. Please consult your financial professional for a specific recommendation about purchasing this product.

CHOOSE THE CONTRACT OPTION THAT MAY BE APPROPRIATE FOR YOUR FINANCIAL NEEDS.

Issue age: 0-80

Contract maintenance charge: \$50 annually (waived for contract values¹ of \$100,000 or more)

Minimum purchase payments: Initial: \$10,000 qualified/nonqualified
Subsequent: \$50

Contract	Withdrawal charge schedule (for each purchase payment)	
Base 1.40% annual mortality and expense risk (M&E) charge	7 years	8.5%, 8.5%, 7.5%, 6.5%, 5.0%, 4.0%, 3.0%, 0%
Bonus 1.90% M&E charge	9 years	8.5%, 8.5%, 8.5%, 8.0%, 7.0%, 6.0%, 5.0%, 4.0%, 3.0%, 0%
Bonus: 6% on all purchase payments received before the older owner's 81 st birthday. As with all bonus variable annuities, please understand that they may carry higher fees and charges than variable annuities without the bonus feature.		

¹For bonus contracts we use the bonus value instead of contract value.

Withdrawal privileges

During accumulation (and prior to the benefit date if the Income Protector is selected), **12% of purchase payments can be withdrawn per contract year without a withdrawal charge.**

Withdrawals will reduce the contract value and the value of any protection benefits. Additional withdrawals taken within the withdrawal charge period will be subject to a withdrawal charge. All withdrawals are subject to ordinary income tax and, if taken prior to age 59½, may be subject to a 10% federal additional tax.

Standard contract features

- Nursing home waiver (after the first contract year) may not be available in all states. Please see the prospectus for more details.
- Automatic Investment Plan (maximum \$1,000 monthly)
- Systematic withdrawals
- Required Minimum Distribution Program
- Flexible rebalancing (available for contracts without an optional living benefit)
- Dollar-cost averaging (DCA) – standard DCA, six, and 12 month²

Annuity payout options

- Life
- Life with period certain
- Joint and last survivor
- Joint and last survivor with period certain
- Refund life

²Please note: Dollar-cost averaging does not ensure a profit or protect against loss. This type of plan involves continuous investment in securities, regardless of fluctuating price levels. Investors should consider their ability to continue purchases through periods of low price levels.

This material is designed to provide you with an overview of Allianz Vision New York, a deferred variable annuity.

If your contract was issued before 4/29/13, there may be slight differences in state-specifics and in the way the benefits work and are calculated. Please see the prospectus for further information.

This material must be preceded or accompanied by a current prospectus for Allianz VisionSM New York Variable Annuity.

Call your financial professional or Allianz Life Financial Services, LLC, member FINRA, at 800.624.0197 to obtain a prospectus about Allianz Life Insurance Company of New York (Allianz Life® of NY) variable investment options. The prospectuses contain details on investment objectives, risks, fees, and expenses, as well as other information about the variable annuity and variable investment options, which you should carefully consider. Please read the prospectuses thoroughly before sending money.

DISCOVER ADDITIONAL FEATURES AND BENEFITS.

Investment options	You may select from many different investment options from multiple money managers. If you select the optional Income Protector living benefit rider, allocation rules apply and assets will be automatically rebalanced every quarter to your most recent allocation instructions for future purchase payments.	
Annual operating expense	Minimum 0.49%	Maximum 2.27%
	Expenses shown are before fee waivers and expense reimbursements.	
Tax-free transfers	12 free per year (\$25 thereafter). All transfers on the same day are counted as one. There is no limit and no fee for transfers due to flexible rebalancing, DCA, and/or automatic quarterly anniversary rebalancing.	

Optional living benefit

Income Protector rider	A lifetime income benefit that provides guaranteed income in the form of withdrawals that guarantee income for as long as you live, with continued access to your contract value. Please see the rider brochure for more details.
-------------------------------	---

Death benefits¹

Traditional death benefit standard with all contracts	Prior to annuitization, beneficiaries receive greater of: <ul style="list-style-type: none"> • Contract value, or • Purchase payments (adjusted for withdrawals)
Optional Maximum Anniversary Death Benefit² 0.30% M&E	Prior to annuitization, beneficiaries receive greatest of: <ul style="list-style-type: none"> • Contract value, • Purchase payments (adjusted for withdrawals), or • Highest contract anniversary value (up to the older owner's 91st birthday, adjusted for withdrawals)

For current optional Income Protector rider rates, please visit www.allianzlife.com/visionnyrates.

¹These are first-to-die benefits based on the owners named at issue, and if there is a change in ownership, the benefits may be reduced or eliminated.

²You must also select the Income Protector living benefit rider at issue. If the optional rider is removed, the Maximum Anniversary Death Benefit no longer locks in the highest contract value and the M&E charge is no longer assessed for this benefit.
