

Plan today for tomorrow's destination

As you approach retirement, it becomes increasingly important to implement a retirement income strategy that allows you to plan now for what tomorrow may bring.

The Nationwide DestinationSM Navigator variable annuity can offer retirement income opportunities to those planning for or living in retirement.

Variable annuities are long-term investment vehicles designed for retirement purposes and will fluctuate in value. Annuities have limitations, and investing involves market risk, including possible loss of principal. All protections and guarantees are backed by the claims-paying ability of the issuing insurance company. Variable annuities offer several ways to generate income at no additional cost, including systematic withdrawals and annuitization. Withdrawals may trigger early surrender charges and may reduce the death benefit, contract value and any guaranteed lifetime withdrawal benefits.
