

Just the facts about New York Life...

# Premier Variable Annuity–FP Series

<b>Issue ages</b>	Nonqualified: 0–80* Tax-qualified: 18–80* (Inherited IRA, Inherited Non-Qualified, and Inherited Roth IRA : 0–80*) <sup>1</sup>
<b>Annuitants</b>	Single or joint
<b>Minimum initial premium<sup>2</sup></b>	\$5,000
<b>Minimum subsequent payment<sup>2</sup></b>	<b>Nonqualified</b> \$5,000 <b>Tax-qualified</b> \$2,500
<b>Investment options</b>	We offer a wide array of investment options in different asset classes and styles. To make investing and managing your money simpler, we also offer a selection of asset allocation funds and model portfolios designed by an unaffiliated third-party investment advisor, QS Investors, LLC, a subsidiary of Legg Mason Inc.  A fixed account, which can offer a guaranteed interest rate for a portion of your investment, is also available (where approved). All guarantees, including the guaranteed interest rate, are backed by New York Life Insurance and Annuity Corporation (NYLIAC).

\*Max issue age of 80 is for policies with application sign date of 8/26/19 or later.

<sup>1</sup> Tax-qualified plans already provide tax deferral under the Internal Revenue Code, so the tax deferral of an annuity does not provide any additional tax advantages. As they offer both insurance and investment features, variable annuities are subject to additional fees to which other tax-qualified funding vehicles may not be subject. Pension/Keogh plans may require a higher minimum initial premium.

<sup>2</sup> \$25 minimum per investment option. NYLIAC will accept additional premium payments until 12 months after the oldest owner reaches age 75 and the maximum aggregate amount of premium payments is \$1,000,000 without prior approval unless otherwise limited by the terms of a particular plan. Policies with an application sign date of 8/26/19 or later have 12 months after the oldest owner reaches age 80 for additional premium payments.

Investments and insurance products are:

Not FDIC/NCUA Insured	Not Insured by Any Federal Government Agency
-----------------------	--

Not a Deposit or Other Obligation of, or Guarantee by, the Bank or Any of Its Affiliates	May Lose Value
--	----------------

### Annual mortality and expense (M&E) and administrative charges<sup>3</sup>

#### During the initial surrender-charge period:

Level M&E fee structure  
1.30% based on adjusted premium payments.  
Traditional fee structure  
1.20% based on the variable account value.

#### After completion of the initial surrender-charge period:

Level M&E fee structure  
1.10% based on adjusted premium payments.  
Traditional fee structure  
1.00% based on the variable account value.

### Withdrawal options

Each policy year you may withdraw, with no surrender charges, the greatest of the three options below:

- 10% of your account value as of the last policy anniversary (10% of the premium if the withdrawal is made in the first policy year) less any withdrawals already made during the policy year.
- 10% of the account value at the time of withdrawal less any withdrawals already made during the policy year.
- 100% of the gains at the time of withdrawal.

Withdrawals over and above the free withdrawal amount are subject to surrender charges as shown below:

Years	1	2	3	4	5	6	7
% of Payment	8	7	6	5	4	3	2

Withdrawals prior to age 59½ may be subject to a 10% IRS penalty tax.

### Death benefit

Unless you annuitize your policy, the death benefit guarantees that your beneficiaries will receive the greater of:

- The account value.
- The money you invested (which is the total of all premiums paid) adjusted for any withdrawals or charges.

All guarantees, including death benefit payments, are dependent on the claims-paying ability of NYLIAC and do not apply to the investment performance or safety of the underlying Investment Divisions.

#### One-time death benefit step-up:

The opportunity for a one-time death benefit step-up is included in your policy at no additional charge. With completion of the initial surrender-charge period, your death benefit will be stepped up to the account value at that policy anniversary if that value is higher than the policy's initial death benefit as explained above.

### Additional features and benefits<sup>4</sup>

- Living Needs Benefit/Unemployment Rider
- DCA Advantage Account
- Automatic asset rebalancing
- Model portfolios
- Dollar-cost averaging
- Interest sweep
- Tax-free transfers<sup>5</sup>
- Systematic withdrawals
- Automated required minimum distributions (RMDs)

<sup>3</sup>Please refer to the fund prospectuses for details regarding fund fees and expenses. Annual policy service charge is \$30, but is waived if the account value is \$100,000 or more as of the policy anniversary date.

**Optional riders  
available  
for purchase<sup>4</sup>**

**Annual Death Benefit Reset Rider**

- Maximizes a financial legacy by locking in any growth on each policy anniversary up to age 85.<sup>6</sup>
- An optional rider available for purchase up to age 75 at an annual cost of 0.25% of the guaranteed amount.<sup>7</sup>

**Investment Preservation Rider—FP Series (IPR)**

- The Investment Preservation Rider—FP Series (IPR) protects 100% of the amount invested in the first policy year—and potentially some growth—against market declines after completion of the holding period selected (adjusted for proportional withdrawals). The Investment Preservation Rider does not protect the investment against day-to-day market fluctuation or losses that could be realized prior to completion of the holding period, which means the rider will not provide a benefit if you do not keep the policy for the entire holding period after it's elected or reset.
- Lock in growth along the way. If the account value<sup>8</sup> is higher, the IPR guarantee can be reset to that higher amount on each product anniversary through age 75 (age 70 for the 20-year holding period). With each reset, the previous guarantee ends, the holding period restarts, and the rider fees may increase.<sup>9</sup>
- The investment choices include a wide variety of asset classes, styles, and model portfolios. Among the investment options available, the maximum target allocation to equity is 70%, so investors may not experience the full risk or return potential of the market. Upon any reset, the allocation guidelines may change.
- The guarantee may be tailored by selecting from a range of holding periods. The IPR fee is based on the guaranteed amount.

<b>Holding period</b>	<b>Fee as a % of guaranteed amount</b>
10-year	1.00%
11-year	0.90%
12-year	0.80%
13-year	0.70%
14-year	0.60%
15-year	0.50%
20-year	0.60%**

\*\*The guaranteed amount for the 20-year holding period is 150% of the first-year premiums or 150% of the accumulation value as of the date of the last reset.

<sup>4</sup> See the rider fact sheets and prospectuses for more details and availability.

<sup>5</sup> This policy is not designed as a vehicle for market timing. Accordingly, your right to make transfers under the policy is subject to limitation if we determine, in our sole opinion, that the exercise of that right may disadvantage or potentially hurt the rights or interests of other policy owners. Please refer to your prospectus for details.

<sup>6</sup> Reset age is 80 for policies applied for before 5/1/2019.

<sup>7</sup> This rider is available where approved only at time of application, and when the oldest owner or annuitant is age 75 or younger at the time of purchase. The rider may not be canceled. Any benefit received is adjusted for withdrawals, which proportionally reduce the guaranteed amount. Rider charges are 0.25% of the reset value as of the last policy anniversary (or as of the policy date if within the first policy year) deducted quarterly. The maximum annual rider charge is 1.00%. The current charge is subject to change at any time, but will not increase once the policy is issued. The rider benefit will not reset after the owner's death (or after the death of any grantor in grantor-owned policies). If the owner is not a natural person, or a grantor trust, the rider benefit will no longer reset after the death of the annuitant. In addition, if an ownership change or assignment to the policy is made, the rider may terminate, and no reset value will be payable. Please see the prospectus for more details.

<sup>8</sup>The account value is referred to as the "Accumulation Value" in the prospectus.

<sup>9</sup>The new rider charge will not exceed the guaranteed maximum annual charge of 1.50% (2.00% for the 10 and 11-year holding periods). The charge for the IPR is subject to change at any time, however, the maximum charge cannot be increased after the rider is issued. NYLIAC reserves the right to discontinue offering the option to reset the IPR guarantee. Withdrawals reduce the guarantee proportionately, which may be more than the actual dollar amount withdrawn.

Variable annuities are long-term financial products used for retirement savings. There are fees, expenses, limitations and risks associated with this policy. All guarantees, including death benefit payments, are dependent on the claims-paying ability of NYLIAC and do not apply to the investment performance or safety of the underlying Investment Divisions, as they are subject to market risks and will fluctuate in value. For costs and complete details, contact a financial professional.

This material is general in nature and is being provided for informational purposes only. It was not prepared, and is not intended, to address the needs, circumstances and/or objectives of any specific individual or group of individuals. New York Life and its affiliates are not making a recommendation to purchase any specific products. For advice regarding your personal circumstances, you should consult with your own independent financial and tax advisors.

*This material is authorized for use by the general public only if preceded or accompanied by the product and funds prospectuses. Investors are asked to consider the investment objectives, risks, charges, and expenses of the investment carefully before investing. The prospectuses contain this and other information about the product and underlying investment options. Please read the prospectuses carefully before investing.*

The account value is referred to as the "Accumulation Value" in the prospectus.

In most jurisdictions, the policy and rider form numbers are as follows (state variations may apply): New York Life Premier Variable Annuity - FP Series (ICC18V-P06 or it may be NC18V-P06); Investment Preservation Rider - FP Series (ICC19V-R02 or it may be NC19V-R02); Annual Death Benefit Reset Rider (ICC15-R302, or it may be 215-R302); Living Needs Benefit/Unemployment Rider (ICC09-R100, or it may be 209-100; some states may offer this rider under a different name, and benefits may vary). Please refer to the product prospectus for more information. The prospectus form number is ANN19114.
