Effective 6/30/20, please note the following updates due to provisions in the Setting Every Community Up for Retirement Enhancement (SECURE) Act:

- For qualified contracts, the maximum length of time for the Period Certain options may not exceed 10 years (9 years for inherited IRA).
- The Life with Installment Refund annuity income option is no longer available with IRA, Roth IRA, and SEP-IRA lines of business.
- For IRA, Roth IRA, and SEP-IRA contracts, joint annuitants are limited to either a spouse, or an individual older than or no more than 10 years younger than the primary annuitant.

Additional Features

Must be selected at the time of purchase. Only one optional feature may be added to the contract. After the contract is issued, the elections made at the time of purchase cannot be changed.

Future Adjustment Option

A one-time increase or decrease in income payments based on an anticipated event.¹

- Increase by up to three times the initial income payment or decrease by up to one-half of the initial income payment.
- Amount and effective date are selected at issue.
- Not available with Joint income options when a reduced benefit has been elected.
- May not satisfy requirements for substantially equal periodic payments under Internal Revenue Code Sections 72(t) and 72(q).

Inflation Protection Option

Annual increase in income payments.

- Increase of 2%, 3%, or 4%, selected at issue.

Access to Additional Income

After the first contract year, there are two ways you can access additional income.

Income Payment Acceleration

After reaching age 59½, if you have elected to receive monthly annuity income payments, you may accelerate your payments and receive a lump-sum amount equal to three or six times your normal monthly payment. (For qualified contracts, the entire payment acceleration period must be in the same tax year.)

- Normal income payments will resume in the fourth or seventh month, respectively.
- Available with all annuity income options.
- This feature can be exercised a maximum of two times.
- If you use this feature, you must receive at least one normal monthly income payment before you may use the feature again.

Withdrawal of Guaranteed Income Payments

For nonqualified contracts, you may make a lump-sum withdrawal of up to 100% of the present value of your remaining guaranteed income payments (subject to state availability).

- Available with all options except Life Only, Joint Life Only, or Joint and Survivor Life Only.
- Interest-rate adjustment will apply.
- Owner(s) must be age 59½ or older at the time of the withdrawal.
- Making a withdrawal will lower or may stop your remaining guaranteed income payments. However, with the exception of the Period Certain option, if you are still living at the end of the period when your guaranteed income payments would have stopped, Pacific Life will resume income payments until your death.

Please note, if you elect the Income Payment Acceleration feature, there is a six-month waiting period before you may make a withdrawal. Likewise, if you make a withdrawal, there is a six-month waiting period before you may elect the Income Payment Acceleration feature.

Death Benefit

Return of premium if an owner or annuitant dies or is diagnosed with a terminal illness resulting in a life expectancy of 12 months or fewer before the first payment date.

¹An increasing future adjustment is not available for qualified contracts.

While ratings can be objective indicators of an insurance company's financial strength and can provide a relative measure to help select among insurance companies, they are not guarantees of the future financial strength and/or claims-paying ability of a company. The independent third party from which this annuity is purchased, including the broker/dealer, the insurance agency from which this annuity is purchased, and any affiliates of those entities, make no representations regarding the quality of the analysis conducted by the rating agencies. The rating agencies are not affiliated with the above-mentioned entities nor were they involved in any rating agency's analysis of the insurance companies.

Pacific Life is a product provider. It is not a fiduciary and therefore does not give advice or make recommendations regarding insurance or investment products.

Qualified contracts, including traditional IRAs, SEP-IRAs, Roth IRA, inherited IRAs, and inherited Roth IRAs, are eligible for favorable tax treatment under the Internal Revenue Code (IRC). Certain payout options and certain product features may not comply with various requirements for qualified contracts, which include required minimum distributions and substantially equal periodic payments under IRC Section 72(t). Therefore, certain product features, including the ability to exercise withdrawal features, may not be available or may have additional restrictions. The Income Payment Acceleration feature is available but will be considered a modification to the 72(t) program and may subject the series of 72(t) withdrawals to a 10% additional tax. In addition, certain payout options may not be available for qualified contracts.

For Roth IRAs, upon the Roth IRA owner's death, distributions to the designated beneficiaries may be subject to IRS required minimum distribution rules. If the designated beneficiary is not the spouse, the beneficiary may be required to take a lump-sum payment of the present value of the guaranteed payments if a death benefit becomes available. For the purpose of qualified distributions from a Roth IRA, since the five-year waiting period is tracked by the Roth IRA holder, the designated beneficiary and/or spouse who elects to treat the Roth IRA as his or her own will also need to take on this responsibility going forward when claiming qualified distributions.

Income from annuity payments received from Pacific Income Provider cannot be aggregated or combined with income from other IRA contracts/assets for purposes of satisfying IRS required minimum distributions.

Nonqualified contracts may not be subject to the various requirements for qualified contracts, but are still subject to an additional 10% federal tax for annuity payments, withdrawals, and other distributions prior to age 59½. While there are exceptions to this additional federal tax under IRC Section 72(q), certain payment options may not comply. For nonqualified contracts, an additional 3.8% federal tax may apply on net investment income.

Pacific Life refers to Pacific Life Insurance Company and its affiliates, including Pacific Life & Annuity Company. Insurance products are issued by Pacific Life Insurance Company in all states except New York and in New York by Pacific Life & Annuity Company. Product availability and features may vary by state. Each insurance company is solely responsible for the financial obligations accruing under the products it issues. They are not backed by the independent third party from which this annuity is purchased, including the broker/dealer, by the insurance agency from which this annuity is purchased, or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.
